

Hutchinson Middle School Parking Lot

Safety is #1 at all times. Our new parking lot has presented a few challenges that we are addressing and monitoring. More families are dropping students off at HMS, due to the COVID pandemic. In order to be safe we need your help to follow the guidelines below at both drop off and pick up times during the day. Thanks for your cooperation.

AM drop off/PM pickup:

- Pull as far forward as possible to drop student off
- Student exit on the passenger side of vehicle if possible
- Student ready to leave the vehicle when they are dropped off
- Left hand lane is a bypass lane/drive around/through lane only
 - No dropping off/picking up student in through lane/left hand lane
- Leave enough room between vehicles to safely pull around vehicle in front in order to leave
- Be mindful of the pedestrian crosswalks
- Do not block the sidewalk, use bypass lane
- Setup is similar in nature to Minneapolis airport
- If need arises use the parking spots to unload/load equipment (not in front of the doors)
- Be mindful of the number of vehicles behind you before you stop to drop off
